 CHRISTINE RAY DAVIS, STAFF ADMINISTRATOR  
 JAMES A. LANGAN, GENERAL COUNSEL  
 MAJORITY—221-3051  
 MINORITY—221-3074

Honorable Richard Helms  
 Director of Central Intelligence  
 Central Intelligence Agency  
 Washington, D. C. 20505

Dear Mr. Helms:

The House Committee on Government Operations is again preparing its biennial compilation of the real and personal property assets of the United States Government on a worldwide basis. In the past few years your agency has been of particular assistance to the Committee by furnishing it with a report covering real and personal property assets under the jurisdiction of the Central Intelligence Agency. Such assets were reported in a manner, mutually agreed upon, which represented acquisition cost value without positive identification in each instance.

We would appreciate your supplying the Committee with such information as of June 30, 1972 for inclusion in the Committee's published inventory report.

As we wrote you last August, we are also compiling data on Federal property in the custody of contractors. To the extent and in the manner that such information may be revealed, if any property under your jurisdiction was in the custody of contractors on June 30, 1972, it should be reported in the following format.

#### FEDERAL PROPERTY UNDER THE JURISDICTION OF THE CENTRAL INTELLIGENCE AGENCY IN THE CUSTODY OF CONTRACTORS

Real and personal property under the jurisdiction of the Central Intelligence Agency in the custody of contractors should be reported under the following categories:

Executive Registry  
 72-4544

Honorable Richard Helms

- 2 -

August 14, 1972

1. Land - Acreage acquired or held through public domain, purchase, donation, exchange, and long term interest.
2. Other Real Property - Buildings and other structures and facilities (e.g., airfield pavements, harbor and port facilities, roads and bridges) owned by the Government, whether or not located on Government-owned land.
3. Industrial Plant Equipment - Operating equipment with an acquisition cost of \$1,000 or more, used for the purpose of cutting, abrading, grinding, shaping, forming, joining, testing, measuring, heating, treating, or otherwise altering the physical, electrical, or chemical properties or materials, components or end items, entailed in manufacturing, maintenance, supply, processing, assembly, or research and development operations.
4. Other Equipment - Operating equipment not categorized as Industrial Plant Equipment and having a normal acquisition cost of \$50 or more (e.g., automobiles, trucks, lift trucks, machine tools, woodworking tools). Administrative equipment used in office and administrative support space (e.g., desks, chairs, filing cabinets and storage cabinets).
5. Nonconsumable Material - Material which is returned intact to the Government after completion of use and for which the Government retains title.

For each of the above categories, there should be in tables similar to attachments 1 through 5, prepared for the Committee by the General Services Administration, the following information:

- a. Location by State or country
- b. Number of contractors
- c. Type of Industry Utilizing Property (general description)
- d. Recorded cost (Either acquisition cost, actual cost or estimated value at time of acquisition)
- e. In the case of land only, the acreage involved

Honorable Richard Helms

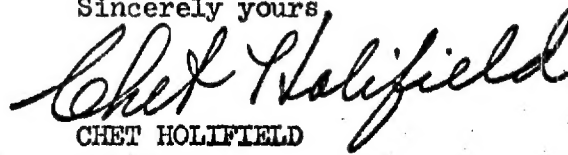

- 3 -

August 14, 1972

We need the information requested in this letter as soon as possible and would appreciate your letting us know when we may expect it. Any questions regarding this request should be directed to Mr. James A. Lanigan, Consultant to the Committee at 225 - 2738, or to Mr. Miles Q. Romney, Counsel-Administrator, at 225 - 5051.

Your cooperation in the Committee's endeavor will be highly appreciated.

Sincerely yours,

  
CHET HOLIFIELD  
Chairman
